

# Living Stones

2006 Area-Wide Men's Retreat at Flaming Pine  
September 8-10, 2006

Stone monuments were common in ancient cultures. Centuries later, these dead stones remain, unable to testify to their own meaning. In 1 Peter 2:5, we are compared to Living Stones which are being built into a Holy Priesthood. Each of us should be a living testimony to what God is able to do with a broken life. So how's your testimony going?

This year's retreat will be a unique opportunity to bond in fellowship while working to smooth out our rough edges. Our speaker, Tim Ruiz, will lead us on a course of study and reflection in which we'll be challenged as individuals to understand where we are in our Christian walk, where we want to be, and how we go about getting there.
